How comfortable am I about …

…the meaning of conditional probability?

Probability and conditional probability - *Exercises 1 and 2*

How comfortable am I about …

… the application of Bayes´ theorem?

Bayes´ theorem - *Exercise 2*

How comfortable am I about …

… how to identify the Binomial model?

Binomial model - *Exercise 3*

How comfortable am I about …

… how to compute probabilities with the Binomial model?

Binomial model – *Exercise 4*

How comfortable am I about …

… how to compute probabilities with the Normal model?

Normal model - *Exercise 5*

How comfortable am I about …

… how to graphically check if the data was sampled from a population with a Normal distribution?

Normal model – *Exercise 6*
